### "Hang On To Your Smile"

Your time is up  
You dance alone  
Your eyes they hardly shine  
Where is all the fire

Your one desire  
So hard to share  
You look so tired and shy  
The night goes on and on

Hang on to your smile dear  
Hang on to your smile

Your time is up  
You walk alone  
You don't find it hard to cry  
The hurt goes on and on

Hang on to your smile dear  
Hang on to your smile

When all you do is wrong  
Hanging on to everything and everyone  
But I don't look bad  
No I don't look bad

Hang on to your smile dear  
Hang on to your smile
