"Lonely Vegas"

Tell me about it, you know so well
Lonely vegas, I'm here to stay
I can reach out for the stars (brother)
Just you tell me when to start
And I will leave the ground

Everytime I fall from grace
But that won't change
There's a glorious sky today (brother)

Generous white line, spin my day
Jack you're a thousand dollars late
Will you reach out for those hearts (brother)
Get me straight right from the start

Don't wanna feel the ground

Everytime I fall from grace
But that won't change
There's a glorious sky today (brother)

I can slot myself to dawn
Can't stop my self
Should I tell myself to run
