I will walk right through you  
Only I could tell  
Your neon heart is broken still  
Visions in your head

You don't feel like anything  
And your fear, it blocks my way  
It don't work like that

I read your mind, feel you  
Come in through you  
Walk into your life  
I read your mind  
Walk right through you  
Walk right through your life  
Walk on by

Into the never ending  
Every year that goes by  
Reaching back to who you are  
We can trace the path

Leave your ghost and walk free  
Let your dreams begin the ride  
It's all been done

One, two, what do you do  
Three, four, open the door  
Five, six, what you fix and what remains undone  
One, two, all that I can do  
Three, four, all that I go for  
Five, six, I'm only adding, only adding up

And we walk on by...
