

2nd Best "Graduation Day"

Visit "[Graduation Day](#)" on MotoLyrics.com

started the journey 18 years ago
friends would come and friends would go
everyday seemed to be the same
we've run into problems
but who's to blame
who's to blame

even though sometimes it was hard to get along
some of us feel as if we dont belong
memories of adolescent fun
lessons learned and now we're all done
now we're all done

time to get away
time to break free
time to find out what you mean to me

its graduation day and its all been fun
one last day for everyone

a lot of things are on my mind
what to do now its time i tried
try hard with whatever i do
and i just hope we can all pull through
all pull through

time to get away
time to break free
time to find out what you mean to me
its graduation day and its all been fun
one last day for everyone
