You love me, you really love me
I finally found a friend
someone I can safely let in
I've turned the world upside down
only to find it wasn't round
I can safely give my life to you

You accept me as I am
never judging my mistakes
While I take hold of your hand
you make me feel I am safe, I am safe

My life completely changed
I owe it all to you
I had nowhere to turn
I buried my pain deep within
no one could A get behind those E walls
now I can safely live again
