"Question Of Time"

Visit "[Question Of Time](#)" on MotoLyrics.com

Time, it's all a question of time

It's all a question of time

It's all a question of time

Smaller face to synthesize

It's only faith from crime to cranks

It's only faith belief in visions

Here comes the faceless of the heart

Her tricks you

And I, I need to solve these problems

Time, it's all a question of time

It's all a question of time

It's all a question of time

Time and speed cross the surface of their faces

It's proof and it's blind

That's my life is untimely

Time, it's all a question of time

It's all a question of time

It's all a question of time

Yeah, sex it's all a question of lies

It's all the bodies they seek

It's all the bodies they face

And I, I'm fond of peace
I follow time
It's full of loopholes
It's for the meek
It's for the strong
It follows me
It's for the neutron, yeah
Time, it's all a question of time
It's all a question of time
It's all a question of time
Produce is sick
And finance is my face
Jews they are fine
And solutions keep coming forward
Time, it's all a question of time
It's all a question of time
It's all a question of time
Time, it's all a question of time
It's all a question of time
It's all a question of time
