

2nd String "Tuesday Night"

Visit "[Tuesday Night](#)" on [MotoLyrics.com](#)

I never thought I would meet anyone like you
You were just so understanding
On that day you said you would be my friend 'til the
end
Now I guess I was wrong

Chorus:

When I saw you on that day
I didn't know just what to say
I didn't know where to go
When I saw you at that place
Did you see it on my face?
I didn't know where to go

Whether or not I come back I won't see you
Whether or not I come back I won't love you

I never thought I'd see you working in the park that
Friday

You dumped me Tuesday night
I always thought we'd be laughing about this together
Now I guess I was wrong

Chorus

Whether or not I come back I won't see you
Whether or not I come back I won't love you
Whether or not I come back I won't see you
Whether or not I come back I won't love you

(echo) I need her now
I don't know how to get her back in my arms but I'll find
a way

Whether or not I come back I won't see you
Whether or not I come back I won't love you
