I remember
The way I used to feel with her
It's been forever
Since I've met a girl like you

Pre-Chorus:
And now it's harder to find out
How I feel about you now
Cuz you're just so far away

Chorus:
I'd feel honored
If you would take my hand
But you're out there

Trying to stand on your own
But it doesn't
Have to be like this forever
What is Heaven?
Heaven is when I'm with you (x2)

Now you're clever
Cuz you see me to the core
Now and forever
I want to be with you

Pre-Chorus

Chorus (x3)
