rainy days girls pass me by,
I dont know what i should do I'm just starting to die
And the positivities just so far away, far away.
They cane my lung and rip my hearth away hearth
away
But girl I'm thinkin of what you and every thing you do,
and every thing I do become so easy when I think of
you

Thats because you are my star and I love you,
i'm blessing every day that I'm living here beside you
You make the evil world a better place better place,
and all the hate I got inside myself seem so far away,
far away
Cuz I'm am down with love,
and the judgement that come we will fly above
The sky feeling so high,
I will never wake up from this dream before I die
And If you think I'm lost, if you think I'm gone,
I'm just ripping hypocrits down inna babylon

//Dark feelings comming over me
and I dont know if I can see the future without you by
my side girl,
then I look into your deep blue eyes,
and I know that you're my princess my queen and my
empress
//Dark feelings comming over me
and I dont know if I can see the future without you by
my side girl,
then I look into your deep blue eyes,
and I know that you're my princess my queen and my
empress

When the snow is falling down on my soul,
you are always there to help me find a way to my goal
You put the sound back in my hearth again, hearth
again.
And you will always be my best friend to the end.
Your like an angel sent from heaven to protect my
world,

and I will never let you gonna know this, your my
number one girl.
And when i feel like givin up,
you give me so much love so I can reach to the top.
You make a rainy day a sunny day, sunny day,
and when you touch me I just feel like I'm far away, far
away.
Just girl it feels so right,
and I know that I can do it if you stand by my side.
Quz you're my soul my railing my goal, yes I am sure
it's you I adore.
baby come closer, let me whisper in your ear,
the things that you wanna hear, wanna hear I love you

//Dark feelings comming over me
and I dont know if I can see the future without you by
my side girl,
then I look into your deep blue eyes,
and I know that you're my princess my queen and my
empress
//Dark feelings comming over me
and I dont know if I can see the future without you by
my side girl,
then I look into your deep blue eyes,
and I know that you're my princess my queen and my
empress

Cuz girl, my love for you will never run empty,
Cuz my love, is shining like the moon and the sun
and I hope, that you'll believe me
if you don't just listen to this song

//Dark feelings comming over me
and I dont know if I can see the future without you by
my side girl,
then I look into your deep blue eyes,
and I know that you're my princess my queen and my
empress
//Dark feelings comming over me
and I dont know if I can see the future without you by
my side girl,
then I look into your deep blue eyes,
and I know that you're my princess my queen and my
empress

You're my queen and my empress, You're my queen
and my empress
