Tupac:

I lay awake tonite
Because I wanna be with u
If u were beside me I'd playfully kiss u
Each time I see u the feeling gets stronger
U sit with me closer we stare a lot longer
Reach for my drink and for a second we touch
Words are muttered I stutter
Cause I want u that much
The situation is a no win
Cause he's my best friend
But now I'm guilty
I'm fallin' for his girlfriend
I know it's wrong but my heart is filled with purity
I offer passion but he offers security
It's like a trap that I'm sinkin' into
I wake up sweaty when I'm sleeping cause I'm thinkin'
of u
Then we make our contact
And I can't hold back
I try to shake it but the feeling comes right back
What have I gotten into
I feel possessed by u
I have these thought at nite of undressin' u
It's kinda obvious blind men might see
But he doesn't so he keeps on trustin me
Leaves me alone with u while he's on vacation
But how could he leave me with this temptation
now I'm confused cause I'm no casanova but u keep
calling
u saying to come over
What do I do go or stay and play it smart
It's gettin' rougher cause I suffer from a burnin' heart
My burnin' heart

Ray:

Girl u r my one and only
U r my angel and now u wanna leave me lonely
What did I do, baby did I treat u bad?

My heart is broken and now u make me sad
I remember when this love affair first started
We were so in love and now we are departed
Girl I'll buy anything your heart desires
I have to let u know baby your my fire
Warm and wet each kiss is prolonged
It's your sweet caress that makes Rock too strong
Just being with u and seeing the two of us
Walking along the beach cause girl u r my peach
So sweet and tender my love I surrender
No need to pretend that u want it to end
I'll neva let u go your foreva my girl
U know why?
Cause girl u r my world
My burnin' heart

Tupac:

Totally tongue tied every few seconds I keep watchin' u
He's my best friend but I can't help clockin' u
How could this be how could we both love u
Now I'm trapped in this position and don't know what to
do
I could forget about u pretend that we neva met
But when I hear bout u I start to heavily sweat
U give me looks that reinforce thoughts
That r already there
So many times my eyes r caught up in this passanger
stare
Play the role like u don't matter
He swears that we hate each other
but in reality we cant wait to taste each other
Your my addiction cause I fiend for u desperately
I Stand here fantasizing because you're next to me
What can I do with this passion I feel
It's too hard to conceal so I know it's for real
Watched u so many times I know where every curve is
I think he reads my mind and so I'm feelin nervous
I wanna tell u how I feel but that wouldn't help
it would only cause problems so I keep to myself
even though It drives me crazy to see u sittin' with him
A tear goes down my cheek because I see u kiss him
I know the words ya sayin' b4 they could be said
Hear the thoughts that you're thinkin' b4 they come in
your head
Wouldn't hurt the brotha for anything in this world
But damm I feel in love with his girl
My burnin' heart

Ray:

My heart is burnin' u know it's yearnin'
For your sweet caress
I lay in ecstasy as u kiss and rub my chest
U know u love me why must u deny yourself?
What I can offer u yet u want somebody else
It's not that! Well then girl what could it be
I hope I'm good for u cause baby you're so good to me
Many nites I cried and tried to make this work
Then act a fool and cool and cruel like a jerk
Well I'm sorry baby I have to let u know
U r my life my strenght I refuse to let u go
U r so fruitful baby u light up my life
I close my eyes and dream and make you become my
wife
Day in and day out it's u I pray about
Don't lock the door to your heart and make me stay out
I love u cause honey you're like a work of art
You've got me on fire My burnin' heart
Repeat first verse
