

## Work Drugs

### "License To Drive"

Visit "[License To Drive](#)" on MotoLyrics.com

I've got a license to drive

I've got a license to drive

Just teenage excuses and crystalline lies

I've got a reason to try

Cause when we expire, we can't get much higher

Mercedes Lane, the curls I can't avoid

The pink dress looks better on the Caddy floor

Save a sip for me, it's my night to dream

Do you want me, want me?

I've got a license to drive

Just teenage excuses and crystalline lies

I've got a reason to try

Cause when we expire, we can't get much higher

The engine's dead, the trunk becomes her bed

Let's fix the dents and take the wheel again

Archie's glow, the last I'll ever know

Less is more, less is more

I've got a license to drive

Just teenage excuses and crystalline lies

I've got a reason to try

Cause when we expire, we can't get much higher

Didn't even fail, didn't even fail

Reverse rides, the coffee never spills

Didn't even fail, didn't even fail

The White Golf, the girl, it's all too real

I've got a license to drive

Just teenage excuses and crystalline lies

I've got a reason to try

Cause when we expire, we can't get much higher
