The matching children fall in play  
It makes me happy without the pain,  
I've been waiting for the phone to ring  
And I'm convinced that we're all the same.

I've seen you cut through me  
How long can you wait?

Right now she's dancing in the middle  
My heart is naked for the first time  
I feel the turning of the ground now  
Weigh, oh, weigh me down.

I bite my lip with the fear that my  
Girl's been tasting another guy  
It appears to me your life can only move  
At the pace of the river you travel down

There's never enough paper  
When you leave me face down

I feel just perfect  
There's nothing wrong with me  
So leave me alone  
Don't make me tell you twice  
But when the windows die  
It's enough to, it's enough to, it's enough to  
Drain my sanity and leave me helpless  
Staring endlessly all night  
But the words aren't right
