She's your New York City  
I'm your Abilene  
Shes your polite silence  
I'm the song you sing

She's your growing up  
I'm your staying young  
She's your play it safe  
I'm your need to run

She's the air you try to breathe  
The happy ending you try to see  
She's the reasons you make up  
To try to get over me

She's your pretty portrait  
I'm your wrinkled photograph  
She's your straight face  
I'm your need to laugh and cry to dance and to lie

She's the air you try to breathe  
The happy ending you try to see  
She's the reasons you make up  
To try to get over me

She keeps your things  
She keeps your yard and your home  
I keep your heart on my bedstand  
While I sleep alone

She's the air you try to breathe  
The happy ending you try to see  
She's the reasons you make up  
Make believe kind of love  
She's the reasons you make up  
To try to get over me  
Over me..
