You are now superhuman

Superhuman but he has not known it yet Lets hold  
hands and sing it together that love makes me happy  
Love makes me happy Deep inside you you're the  
best true or false you decide when to open deep inside  
you you're the best high or low you describe it to  
you deep inside you you're the best like a flower  
you grow

Cut

Cut your limits do it now it now let's hold hands and  
sing it all together love makes me happy love makes  
me happy deep inside you you're the best true or  
false you decide when to open deep inside you  
you're the best high or low you describe it to you  
deep inside you you're the best like a flower you  
grow easy and fast He is perfection of god and he  
knows it now let's hold hands and sing together  
that love makes me happy love makes me happy love  
makes me happy deep inside you you're the best
