It's been quit some time since i told you goodbye,  
I guess the time ran out for you and I,  
I had to tell you so had to let you know,  
that you weren't to blame for why I had to go  
there comes a point in time where feelings collide,  
and a man has to deal with his feellings inside  
i guess i knew all along we wasn't ment to be  
now I deal with the pain and insecurity  
of being alone, no sms on my phone,  
on how much you miss me, what time i'll be home  
no sweet soft kisses no mr and mrs, no beautifull  
smile, or home cooked dishes  
no ring on your finger no love to remember, its hot july  
but feels like cold december  
while I sit I wonder in tears of thunder  
the sun will rise in the clear blue skys

Chorus:

when I cry you cry  
when I smile you smile  
when I die you die  
I cant stop thinking what happened to you and i  
when I leave you leave  
when I need you need  
when I see you see  
that we will always be together for eternity

Life goes on people grow apart  
I cant keep pretending not to hear my heart  
I'm sorry you know for what I did to you  
all the pain and hurt that I put you through  
it was written in the cars that we wouldnt go far  
that the tabels would turn and our love would burn  
the confessions I told, the price I paid  
was just the cover up for the mistakes I made  
she didnt mean anything she was just a flirt  
I know I broke your heart, and it truly hurts  
I'm telling the truth youre ma babyboo  
I had sex with her but made love to you  
so while I fill my glass with loneliness  
I'm so emty inside with words I can't describe

how I poisoned our love untill it slowly died  
I can't stop thinking what happened to you and I

Chorus:

when I cry you cry  
when I smile you smile  
when I die you die  
I cant stop thinking what happened to you and i  
when I leave you leave  
when I need you need  
when I see you see  
that we will always be together for eternity

Many women come in and out of my life  
before they get a chance to stay I just push them away  
I don't let them get to close where it hurts the most  
way deep down I wanna find you now  
tired of looking for love in the lost and found  
i'm praying to god I hope he hears me know  
I wanna have that special feeling all over again  
where you are good lovers and the best of friends  
where you fight each other, and make up in the end  
and you'll ride or die to, for the girl beside you  
spend more time with her than you do with your crew  
so listen up boo i'm still praying for you  
cuz someday you're gonna turn up by my side  
and be the girl i wake up with for the rest of my life  
so untill then I wait untill we finally meet  
so we can be together for eternity

Chorus:

when I cry you cry  
when I smile you smile  
when I die you die  
I cant stop thinking what happened to you and i  
when I leave you leave  
when I need you need  
when I see you see  
that we will always be together for eternity

Yo listen..

no matter what happens..  
I will always remember you..  
for eternity..
