deeper.....we run this shit
uncut like escobers exports
my bitch but like escobers escort
i'm thinking escobers next thoughts
fresh passports in the next airport
real niggas into act well,
i had to act long before a nigga rap well,
really real your niggas realy act well,
black wheels on the whip call it black mail

aint no pussy over hear never back down,
never pussy over here better ask round
tampex any pussy you want to act foul
just another obituary to pass round
all the real niggas car pool
never ment a killer realy into cartoons
tattooed bt cartoon and g-note
looking at my chest my flesh is a c-note
