"Shining Friends"

Visit "[Shining Friends](#)" on MotoLyrics.com

A little faith brightens a rainy day
Life is difficult, you can go away
Don't hide yourselves in a corner
You have my place to stay
Sorrow is gonna say goodbye
Opens up, you see the happy sunshine
Keep going on with your dream
Chasing tomorrow sunrise
The spirit can never die
Sun will shine, my friend

Won't let you cry, my dear
Seeing you, I'll share the tear
Make my woe disappear
You never be alone in darkness
See my smile, my friend
We are with you, holding hands
You have God to believe
You are my destiny
We meant to be your friends
That's what a friendship is
