

Young Knives, The "Light Switch"

Visit "[Light Switch](#)" on MotoLyrics.com

We've got bets, you're on the move
Afternoons fade into afternoons
Wearing a frown and hand me downs
Kicking cushion dust with good time shoes

Is it just a sound
Bounces on the ground
Is it just a silence
A silence that surrounds

You are the light switch (x2)

All your friends are squeezing you
Just to see you do your stuff
Rip knee slacks on factory tracks and city boys
Sing along with top ten tunes

Is it just a sound
That bounces on the ground
Is it just a silence
A silence that surrounds
Faces that I've seen
In broken down machines
You can make a difference
And tell us what it means

You are the light switch
You are the light switch
And I've noticed the light switch
Because the light is shining bright (x2)

And it still stands (x2)

You are the light switch
You are the light switch
And I've noticed the light switch
Because the light is shining bright (x2)
