Moonrise  
Shadows cry  
Conjure the spirit  
In the circle of death  
The midnight hour  
The moon is calling  
Hear the bell  
As he chants the spell  
Nine candles  
A divination  
On command  
She will arise

Evil  
Sorcery  
Beyond the realm  
Of reality  
In this madness  
A shining silence  
Unfold the darkness  
Of the seance  
School the demons  
Diest and phantom  
The moon is rising  
Black phantom cries

Creeping through the night  
Searching for the fire  
The glow of the sacred light  
That brings so much desire  
Hooded spirits reign  
As priests lay bound in chains  
Candle light burns through the night  
As dirges fill the sky

Transcend  
Mortality  
The Clairvoyant masters  
Necromancy  
Singing dirges  
At black mass

A scarlet cross  
Burnt sacrifice  
Meet the fire  
Bring desire  
Black magic and the  
Bringer of light

Alchemy  
In the night  
Invite the spirit  
Back to life  
An orchestration  
Of incantation  
Break the wall between  
Life and death  
Moon fire  
Surrounding you  
I will curse you  
If you force me to

Creeping through the night  
Searching for the fire  
The glow of the sacred light  
That brings so much desire  
Hooded spirits reign  
As priests lay bound in chains  
Candle light burns through the night  
As dirges fill the sky

Candle light burns into the sky  
The spirit comes tonight  
Her body's alive and will slowly rise  
Come back to life

Sinister sky in the midnight light  
The torches shining bright  
Saturn casts the wicked shadow tonight  
Escaping demise

Into the mist  
Into the light  
Welcome to  
The circle of life  
Sacred  
Deity  
Divine embrace  
Immortality  
Deny reverence  
Demonic ritual  
Escape Perdition  
And incarnate

Creeping through the night  
Searching for the fire  
The glow of the sacred light  
That brings so much desire  
Hooded spirits reign  
As priests lay bound in chains  
Candle light burns through the night  
As dirges fill the sky

She lies awake  
Lightning flashes in her veins  
I follow her to a place  
I hear the wind  
It cries her name  
I feel the lightning  
And I see the clouds  
They disappear
