Awake  
The Beast  
Take him for his twisted magic  
Come  
My way  
Step inside the candlelit cave with me  
Feel free  
Blame me  
Plan the slaying of the monster

Orders from the master  
Is the slaying of the monster  
Step inside his heart  
Climb away on his veins of pain  
Let the blood flow  
At midnight kill the monster

Slay The Monster

Drink  
The moon blood  
Take a little blood from the monster  
Crawl away  
An open eye watches you get away  
Call my name  
Yell a little little bit louder
