Thinking a lot bout my life and all that  
Thinking bout the goods  
And some of the bads u know  
So I grab my brother and wrote our life novel  
Her it go

[CHORUS]

This is the chapters  
The before and after  
The good the bad the pain and disaster  
The chapters  
DonÂ't want to speak my mind  
Bout my hard knocked life in this book of mine

(ROYAL)

I woke up pops was gone  
Young and confused in a broken home  
Motel skipping motel living  
Rooms about the size of a hotel kitchen  
(Hold on) I been around the block  
The year of my life been a round my pops  
The years of my life  
I remember nights  
Home this with my brother on December nights  
Then mom got sick  
Lost her head  
A PHD woman with a lost career  
6 months to live she could barely walk  
All my friend call her dumb for the way she talk  
So I thank God she alive today  
I sit the night I pray she donÂ't pass away  
But that incident

Grew up in my mind at that time that my heart had  
innocence  
So this so that  
My only cats saying Ro this smoke that  
Life on the room track  
At school with the rich  
Still broke kicked out of there for the ish that I pitched  
Back to the block  
I saw drug abuse  
Teenage rape that happened a lot  
2006 the time had come we were signed  
This is story is chapter 1

(Listen)

[CHORUS]

(LAZE)

Now we closer to our goal  
But still not quite there  
Friends grew up  
Their ma  
Still cry in tears  
Couple lost dreams  
But I knew some way to work  
That's as how false it seems  
05 came  
The year passed away  
My best friend had two on the way  
Into abortion that was the best for him  
But in the miss I lost respect for him (sawrry dawg)  
After that my nigga Jay had a seed  
His baby momma refused to take him back  
No job he can't make a stack  
Anotha victim of the street corner  
He turned to rap  
How to walk

Before books of life  
Still broke  
Living 'round the rich  
So I pitched  
Went to school but I ditched  
Kicked when I was 13  
Got a grip (ya happy) (oh well)  
Back to the chapters  
This is the truth  
I'm giving you before and after  
From my older brotha hooked on the pipe  
My only role model snortin on the white  
This man of the household  
I got out so  
I was young I was still without dough  
Is only right that I rap the truth  
So there it go our life that's chapter 2

[CHORUS]

This is the chapters  
The before and after  
The good the bad the pain and disaster  
The chapters  
Don't want to speak my mind  
Bout my hard knocked life in this book of mine

So there it go man  
The before  
The after  
You know all in between  
Take out howeva positive you want but negative don't  
But we had to give it to ya'll  
Oh yea trust me there a lot of more to come  
Stay tune
