every time i must say goodbye to you
i feel so down inside
every night all i can do is think of you
you stole my heart away

didn't know how true romance can be until now
didn't know why lovers cry
couldn't wait to see your smiling face anymore

every time you must face the restless world
do you remember me
and whenever you need a gentle word
why don't you call me up
i'm the one for you when things get rough and so hard
don't you know just what i mean
couldn't wait to hear your endless dreams come to me

sing a love song for me
sing for me a song romantic
make happiness happen
sing a love song for me
sing for me a song romantic
and leave loneliness alone

every time i wanna say good luck to you
i hope you hold me tight
every night all i can do is see you through
you set my heart free
didn't know how true love walks with me until now
didn't know how high we fly
couldn't wait to see your smiling face anymore

sing a love song for me
sing for me a song romantic
make happiness happen
sing a love song for me
sing for me a song romantic
and leave loneliness alone
