I have a feeling that we'll meet again
And it will be by chance
You may not remember me
Time will be to blame
But you'll remember us

I wouldn't turn away from fine romance
I've never been to France
You may not remember me
But I'm sure in a sense
You might remember us

[Chorus]
How we smiled, how we'd lost
How we sang, how we dance
With our hearts forgetting to beat
Felt your breath on my face
And your tightest embrace
How I want those days to repeat

You have a busy life, well, so do I
And we are torn apart
But something is telling me
It is worth a try
To wait for a new start
I'll wait for a new start...

When the lights disappear
And my lashes meet
I dream of you near me
As though you were here
Now you are no more
A memory of mine
You are here next to me so divine...

[Music]

I see your face in every face I see
I've given in to Spring
There's only the world to search
For my destiny

But there'll be songs to sing

How we smiled, how we'd lost
How we sang, how we danced
With our hearts forgetting to beat
Felt your breath on my face
And your tightest embrace
How I want those days to repeat
How I want those days to repeat

How we smiled, how we'd lost
How we sang, how we danced
With our hearts forgetting to beat
Felt your breath on my face
And your tightest embrace
How I want those days to repeat

[To fade]
