YUMMY

Boy do u know what you're really askin' me for
If u don't then u need to make sure
You really know what u want (what u want)cuz I got
somethin' for ya
This will blow your mind
Make you wanna go back in time
To feel me all (all) over again
Getcha higher than that twinnie twin twin yea

CHORUS

I got enough goods to feed the whole world
I got more riches than diamonds, and pearls
So for me to get wit cha you need to come get it
Come get it baby
I got that s*** everybody wanna hit
But what I got not just anybody can get it
If you wanna feel the real you need to come get it
Come get it baby

YUMMY

I got the truth
Taste my puddin'
And you'll find the proof
It's fun for me cuz I get to choose
Who I wanna give some of that um um to
And it tastes as good as it looks
You can rock it in the burbs or in any hood
Give you that 'bo' like you from Hollywood
So if u want it take now don't be wishin' to choose later

CHORUS

JADAKISS

I ain't got no need to front I know what I want
And I'm comin' to get it Yummy don't even stunt

When you hear that European horn go to the front
It's me blowin' that black thing blowin' a blunt
And I ain't just anybody I'm somebody (Kiss)
And I don't be at all of 'em ma just some parties
So that train of thought that you got get rid of it
Cuz me hittin' it is some what of a privilage
That ain't real beef I'm in that's frivilous
I'm not from D.C. but I'll show you who the wizard is
Talkin' like you got somethin' wet
Action is louder than words and I ain't felt nothin' yet
The huggin' and kissin' is cool
But honestly I'm 'bout ready to take a dip in the pool
You done did it
Put your money where your mouth is
So come wit it
And I'ma come get it

CHORUS 2x
