callin all cars, callin all cars, uh uh, yung wun in here  
callin all cars, callin all cars, back up, back up, back  
up(we gotta problem)  
time and time again, I try to be on the good foot  
but ladies dont be given me good look  
its hard when you livin like us  
i started the good book  
its just what I see that got me shook  
mean mugs and cold stance take a nigga down  
and to make him fail, imma take it to you how  
lights out, closed casket, murder warn  
yung wun come through with the under grudge  
and live the life, yung talk about it  
don't make beef, come walk about it  
everybody know my name because I play in the street  
not because I say I'm street, mutha fucker

#### Chorus

all my niggas is dirty, niggas is dirty  
all my niggas is thirsty, thirsty thirsty  
now I don't give a fuck, if ya'll don't give a fuck  
all my niggas is dirty, niggas is dirty  
all my niggas is thirsty, thirsty thirsty  
all my niggas is star (?), ???  
well I don't give a fuck if ya'll don't give a fuck

they all try to sound like Pac,  
i dont know why, hoe,  
sounding like Pac is a position you should'nt try, fool,  
they don't understand what they die for  
and tell lies about black folk, and take from they own  
folk  
that type of shit heavy poppin through the stove  
cause you dont wanna show your face  
cause its a known place  
and i don't love her face when she take from me man  
and i don't give a fuck what you think of me  
cause what you think of me is nothin but a mere  
descision  
and they shipped my ass off ta prison  
if i die than death is a given

and if i live let me enjoy living  
thats a wonderful feeling

Chorus (2x)

as a kid i had no love for life  
everything i've done (?) they said it wasn't right  
it doesn't matter hustlers scatter  
everyday from 12 in the A-T-L  
so love is like the wind blowing cold off the scale  
tell me whats going on  
two wrongs dont make it right  
but i know two holes in your dome will take your life  
im on the prescious shorty  
they coming after what I treasure  
its time we start renting out yachts  
yung wun yacht masters ship out blocks  
hold my block why'll i hand out glocks  
send the niggas over the hill  
when they done, go pop somebody for show

Chorus(2X)

A town where you at!!!

(random babble)
