"To Touch. To Breathe. To Love"

You're as same as me you know
But I'm afraid to show my heart
To you cause first time I'm in love
And I'm not sure about how to start to

I look so cool and I act like a star
But you're so smart that you see through me
I say - oh baby just get in a car
But you just smile cause you'd like to see

My heart and
My soul
My dreams and
My goal is

You to touch now and
You to breathe now and
You to love here now

Cause you and I
Just gotta be together somehow

It's really hard for me to pretend
And it's so hard to be someone else
Cause you're so beautiful and in the end
I understand that only thing you need isâ€¦

My heart and
My soul
My dreams and
My goal is

You to touch now and
You to breathe now and
You to love here now
