Seems so easy
Don't someone see it?
Small like wonder
Have I been dreaming?
These eyes are open
These ears can hear you
Though I've been screaming
You never hear me

And you go brick by brick
Walling me in
It's cold and it's dark
The air's getting thin
And I need my space
I wish you'd just relax
Blood pressure building
I feel it comin' on

Heart attack; don't look back
Do you need someone to argue at?
You'll be fine
Love ain't always great
But hey, there's still time

Our lines have all been said
Our words have all been drawn
Like cracks across the base
Of all you've built us on

And you go brick by brick
Walling me in
It's cold and it's dark
The air's getting thin
And I need my space
I wish you'd just relax
Blood pressure building
I feel it comin' on

Heart attack; don't look back
Do you need someone to argue at?
You'll be fine

Love ain't always great
But hey, there's still time

Yes, I've heard it all before, dear
And I've seen it all come down
Be prepared to take a fall, dear

Heart attack; don't look back
Do you need someone to argue at?
You'll be fine
Love ain't always great
But hey, there's still time

(There's still time)
Still time
(There's still time)
Still time
(There's still time)
Still time
