Skin crawls  
Wind is walking  
Through the walls  
Now there's nowhere to run  
Heart pray we'll be ok  
Now there's nothing to say  
But the damage is done

What keeps you up at night, my love?  
What turns you on?  
Dark shadows turn in the pale blue light  
It won't be long

A thousand torches  
Beaming in the distance  
They bleed from the sky  
And as I open my eyes  
I see they've come to take me home

How now  
Can we allow  
We gotta stop 'em somehow  
Body over mind  
Oh no, now we both know  
That there's nowhere to go  
And the damage is done

What keeps you up at night, my love?

What turns you on?  
Dark shadows turn in the pale blue light  
It won't be long

A thousand torches  
Beaming in the distance  
They bleed from the sky  
And as I open my eyes  
I see they've come to take me home

And as I float through the sky  
I know I've known it all along  
And as the stars step aside

I know the battle rages on

A thousand torches

Beaming in the distance

They bleed from the sky

And as I open my eyes

I see they've come to take me home

And as I float through the sky

I know they've come to take me home
