If I died
God knows why
Anyone should hurt this much inside
Gone so deep
Gone so far
Every breathe we break now just leaves scars

Oh!

What's the world coming to
Without me? Without you?
Now the air that I'm breathin' just means nothing
Wanna tear the world apart
Find my way back to your heart
If I live another day I don't know
What's the world
Coming to?
What's the world
Without you?

I need your clothes
On my bed
Everything is just the way you left
Life goes on
Except for me
Even though your gone I just can't
I just can't leave

What's the world coming to
Without me? Without you?
Now the air that I'm breathin' just means nothing
Wanna tear the world apart
Find my way back to your heart
If I live another day I don't know
What's the world
Coming to?
What's the world
Without you?

Goodbye
No it doesn't exist

My heart
Keeps telling me this

What's the world coming to
Without me? Without you?
Now the air that I'm breathin' just means nothing
Wanna tear the world apart
Find my way back to your heart
If I live another day I don't know
Don't know
What's the world
Coming to?
What's the world
Without you?

What's the world
Coming to?
What's the world
Without you?
