"Running Out Of Days"

There's too much work and I'm spent
There's too much pressure and I admit
I've got no time to move ahead
Have you heard one thing that I've said

And all these little things in life
They all create this haze
There's too many things to get done
And I'm running out of days

And I can't last here for so long
I feel this current it's so strong
It gets me further down the line
It gets me closer to the line

And all these little things in life
They all create this haze
There's too many things to get done
And I'm running out of days

All these little things in life
They all create this haze
There's too many things to get done
And I'm running out of days

Well all these little things in life
They all create this haze
And now I'm running out of time
I can't see through this haze

My friend tell me why
It has to be this way
There's too many things to get done
And I'm running out of days
