"Show Your Hate"

Terror, horror and death - tonight your victim shall die
Pain, torture and fear - your knife is waiting for blood

1. Get out there and destroy - the ones that haunt your
dreams

Get out there without mercy - cut them down to pieces
Steel, power and blood - tonight you're escaping from
Hell

Evil, savage and wild - hate is controlling your mind

2. Feeling the bad times again - do not want it to last
Now you're revenging your pain - playing the master of
Evil

CHORUS: Looser - let it out

Looser - it's time to kill

Looser - show your... HATE

Screams from your victim - He's suffering

Blood on your hands - you're a killer

3. What do you feel are you proud

Deliv'rin'your soul to the Evil

Now you've got what you want

There's peace in your mind for a while

4. How do you feel - released

At least for a couple of nights
