Now the tour is finally over,
sit at home rarely sober.
think of the fun times that we had,
almost seemed like i was in the band.
sit on the couch watching my TV,
no one is calling me.
listening to bands that i wanna be,
chicks for them,no chicks for me.
The closest i get to playing guitar is tuning it,
and the only thing worse than fixing the gear is hauling
it.
Now the tour is finally over,
sit at home rarely sober.

think of the fun times that we had,
almost seemed like i was in the band.
I wish i was in a band (can i be in your band),
i wish i was in a band (can i be in you band),
i wish i was in a band (well, andrew ross is in a band),
i wish i was in a band,
can i be in your band?
I sit on the couch oh so lonely,
my name will be forever "roadie",
listening to bands that i wanna be,
chicks for them,no chicks for me.
