i miss you more and more each and everyday,  
cant describe,  
not enough words to say.  
that i need you here next to me,  
but all i have of us,  
is the memories.  
Now you've gone so far away,  
getting farther everyday,  
and i dont wanna be alone.

i wake up to a brand new day,  
but then i realize that you're worlds away.  
i wish that i could say that its,  
gunna be alright, alright.  
i wish i could say that its gunna be alright,  
but i'll be lucky if i make it through tonight.
