I live in the mess you are

I live in the mess you are

And I could find out the truth

I could open you

I could find out the truth

If I just wasn't so blue

I live in the mess you are

I live in the mess you are

And I could sure use some truth

If I could see I'd follow you

And I could find out the truth

I could open you

I live in the mess you are

I live in the mess you are

And I could find out the truth

If I just wasn't so blue

If I could see what you saw

It might change my point of view

I live in the mess you are

I live in the mess you are

And we are walking round that graveyard

We are making love again
We are drinking in the sunlight
We are seeing if we can
Believe in the mess we are
Conceive in the mess we are
Find peace in the mess we are
Bah bah-da bah bah-da bah
I live in the mess you are
I live in the mess you are
I live in the mess you are
Bah bah-da bah bah-da bah
And we are on the road to something
We are sleeping still inside
We are naming idea children
We are thinking how we might
Believe in the mess we are
Conceive in the mess we are
Find peace in the mess we are
Bah bah-da bah bah-da bah
I live in the mess you are
I live in the mess you are
I'm in love with the mess you are
Bah bah-da bah bah-da bah
