I'd like to welcome you to your last breath my friend  
This is your end  
Please let your hair down and make yourself at home  
Say your prayers

Eat my puke  
Lick my shit  
Drink this bottle of urine  
Look at me  
I said look at me  
I'm gonna pull your teeth out

The screwdriver in your eye looks pretty nice  
And painful too  
Let's see if you can handle more pain, let's see if a  
ballpen hurts  
When it sticks in your toe, so  
Close your eyes, open your mouth, let's see  
If you know what a "deep throat" is  
Did you know that it's possible to stick a rasp  
Right into your nose

Home is where  
Your heart is  
Soon your heart's dog bowl  
Look at me  
I said look at me  
I'm gonna cut your tongue out

I guess you're better off dead  
So suffocate  
Don't even beg for forgiveness  
Too late  
Wohoh

I gonna throw you up, open your mouth
