Today is your day, what more can i say? One year older
"Horray"
Now your feeling high, smoke pot, eating pie One year
older, what a day

A birthday party, would be funny cool friends and your
sweet girlfriend
But she don't know what's going on she's wondering so
long
Why do we sing a birthday song?

You don't know now to say how could you forget all my
presents. Now your feeling angry and sad

She forgot your birthday, and now your getting mad.
You tell her now that today is your day .
She ask "Why are you angry? Is everything ok?"

You don't know now to say how could you forget all my
presents
Maybe next year she will be here
