As long as a band plays in front of 10 people
They're cool and you're their biggest fan
But if this scene is all about being underground
Leave us out or we'll voluntarily back out

This is my life. this is my way
Everday's my day. I'm the allmighty

We have no credibility, that's what you say
But what's more credible than doing what we want?
Pain/fame/punk/no/musician/yo
You can't stop my potty mouth

This is my life. this is my way
Everday's my day. I'm the allmighty

Tell me what I should do and be sure I do the opposite
A reorganisation's what we need, shup up go suck a
dick
I don't need political messages to play a damn good
show
The way I feel/think/love and hate is something you'll
Never know

This is my life. this is my way
Everday's my day. I'm the allmighty

This is my life. this is my way
Everday's my day. I'm the allmighty

This is my life. this is my way
Everday's my day. I'm the allmighty
