Who do you think you're kiddin'?
Who do you want the most?
When your heart is against
You want what's best
How do you expect me to cope?

How can I make you feel good?
Make you feel the same ol' way?
As the man you had
But it all went bad
What do you want me to say?

Gonna tell you I lust you
Cus I want you

I heard he had a good confession
Bringing in the goods all the time
But it all went bad
Just the time he had
Was never ever good at the time

Maybe if the weather was right now
He can make it all up to you
But the air has changed
The thrill (...)
It's a good thing I know what to do

Gonna tell ya I lust you
Cus I want you

(I want you, I want you
and I know just what to do)

Can I calm you in your own surroundings?
Let you loose from the leash
Could we go downtown
To chase you 'round
The good times are all we need

Forget about the problem you're having
Drink away your weary soul

And we're at the end
You make amends
And I'm gonna carry you home

Gonna tell ya I lust you
Cus I want you

It's a simple thing you have
But it's everything I want
And you make my head collapse
When you tell me it's my fault
And it's all, all in you

(I want you, I want you
and I know just what to do)
