Iâ€™ll take you,  
Have you and hold you,  
Forever Iâ€™ll love you,  
With all of my heart,  
Youâ€™ll be the capulet to my montague,  
Till the sun kills the moon,  
Till death do us part,  
And even if our money all runs out,  
Thatâ€™s alright as long as I got you around,

True love,  
Is rare like a diamond,  
Two hearts on an island,  
That no one can reach,  
Itâ€™s just us,  
And the horizon,  
With you by my side I,  
Can do anything,  
And even when the world seems upside down,  
Thatâ€™s alright as long as I got you around,

Baby Iâ€™m so crazy, No one makes me feel,  
The way that you do,  
Nobody can wake me,  
Cause youâ€™re my dream come true,  
You know that I, Love, You
