I'm fallin'
Feeling insane when you're around,
You know I do, you know I do, you know I still love you.
I keep on fallin'
Keep on falling down and I'm feeling blue
And i need this opposite of you
Because I still love you.

Shady games of love,
Certainty that fades,
We are bound to lose,
No one wins the race.
Feelings that I might never have again for you... (x2)

I keep on falling,
They stop me down so I can't get you my love
Why don't you call me?
When you're walking down the streets at night,
When you're all alone home tonight.
Burning out my energy,
Want to be with you so girl call me.

Shady games of love,
Certainty that fades,
We are bound to lose,
No one wins the race.
Feelings that I might never have again for you... (x2)
