Lord of the storm rides in the eye, eye of the hurricane  
Lord of the storm rides in the eye, in the eye of Hell  
Rider on the night and ruler of the damned

Damnation creeps upon everyone, a sense of fatal  
warning  
Within the crew there's treachery, a mutiny is brewing  
The first mate draws his cutlass forth, towards the  
captain challenging a duel  
You've sentenced us to a watery grave, this ship will  
sink into the sea  
A brutal storm is on the rise, wrath of an angered deity  
Batten down the hatches for a struggle that will take all  
of our lives  
None shall live to tell the tale of this wretched night

Terror of the seven seas, Lord of the storm spreads  
like disease  
Unlike anything seen before, the Lord of the storm

Behold the wrath the skies unleash  
Until we're dead it shall not cease  
The gods have made their judgement call  
And it spells certain death

The captain mind cannot be swayed  
He'd rather die than give away  
All of the treasure chests below  
To the grip of the unforgiving deep

Blinding lightning sears the flesh  
Raindrops fall like musketballs  
Piercing the skin, wood, steel and bone  
All aboard will pay

The captain surfaces for air amongst the torrent  
nightmare  
Latching to a piece of the hull, destruction's  
everywhere  
No more survivors from the blast, the ship drifts  
beneath the waves  
The master coasts for hours, before the storm begins

to wane

An albatross flies overhead, a sign that land is near  
An island spotted in the distance, maybe the torment is  
at an end

Rain is gone, but doom is near, a shadow's on his heart  
Immortality is his, salted tears will drench his days

The captains' lost upon the seas  
Penance for his wicked deeds  
Cheated by his crew and God  
As he floats and waits to drown

He has no clue what lies ahead  
A deadly isle for him to dread  
He thinks he can rebuild his life  
Set sail to conquer the sea again

As he touches his feet upon the sandy shore  
The sun will rise once more

Lord of the storm rides in the eye, eye of the hurricane  
Lord of the storm rides in the eye, in the eye of Hell  
Rider on the night, ruler of the damned
