Must have a switch blade  
Hiding in your high heel boot  
Cause youâ€™re high grade  
As clever as you are cute  
Might be some kind of spy  
Undercover for the law  
May be a she male  
Lying underneath it all  
Feels a little to good to be true  
Yeah there must be something wrong with you  
From zero to 10 man Iâ€™m doing it again  
On a trip that never ends  
Looking for a sign or something out of line  
To help me change my mind  
Cause nobodyâ€™s perfect  
Iâ€™m a simple jack  
Thereâ€™s so much I donâ€™t understand  
With a simple life  
Baby Iâ€™m a working man  
And I got no money  
But nothing ever comes for free

So won't you tell me  
Tell me what you see in me  
Cause you feel too good to be true  
There must be something wrong with  
From zero to 10 man I'm doing it again  
On a trip that never ends  
Looking for a sign or something out of line  
To help me change my mind  
Cause nobody's perfect  
(Instrumental Break)  
Cause you feel too good to be true  
There must be something wrong with  
From zero to 10 man I'm doing it again  
On a trip that never ends  
Looking for a sign or something out of line  
To help me change my mind  
Cause nobody's perfect  
From zero to 10 man I'm doing it again  
On a trip that never ends  
Looking for a sign or something out of line  
To help me change my mind  
Cause nobody's perfect
