Near a little old farming town
A farmer and his daughter
Worked a parched field
In the hot summer sun
As he cursed the dry weather
And the passing of his wife
His daughter said daddy
Now donâ€™t worry none.
Mamma taught me a song
Last night in a dream
She said if I sing it
And only believe
When that scarecrow starts dancing
God will make it rain
So she sat in that field for two weeks straight
(Chorus)
Singing dance scarecrow dance
This townâ€™s all but dried up
Better get moving
Letâ€™s scare up some clouds
Wonâ€™t you kick up a storm
If thereâ€™s any magic in you
Oh Dance scarecrow dance
Make the rain come down

Her daddy said this ainâ€™t right
The town folk are talking
Iâ€™m gonna burn that scarecrow
Down to the ground
As they both stood there watching
The flames grew higher
The wind started blowing
And the sky filled with clouds
Then it came down in buckets
And the fire died away
As that scarecrow danced
To mother natures ballet
That field turned to mud
And her daddy broke down
Put an end to disbelieving
And six months of drought

(Chorus)
Singing dance scarecrow dance
This town's all but dried up
Better get moving
Let's scare up some clouds
Won't you kick up a storm
If there's any magic in you
Dance scarecrow dance
Make the rain come down! Yeah

(Instrumental Break)

(Chorus)
Oh dance scarecrow dance
This town's all but dried up
Better get moving
Let's scare up some clouds
Won't you kick up a storm
If there's any magic in you
Oh Dance scarecrow dance
Make the rain come down! Yeah
Make the rain come down
