I don't know how many times I've heard it
You can't find it, there's no such thing as perfect

But there's a girl out there, used to sit on my tailgate
Talk about her hometown, she'd take me there
someday
There's a girl out there, she danced in her bare feet
Sang along with the radio, even though she was off key
If you ever meet her, you'll know you've seen her
I swear there's a girl out there

She gives the sun a pretty good run for its beauty
Don't know where she is, but the thought of her kiss still
moves me, yeah

There's a girl out there, used to sit on my tailgate
Talk about her hometown, she'd take me there
someday
There's a girl out there, she danced in her bare feet
Sang along with the radio, even though she was off key
If you ever meet her, you'll know you've seen her
I swear there's a girl out there

There's a girl out there, used to sit on my tailgate
Talk about her hometown, she'd take me there
someday
There's a girl out there, she danced in her bare feet
Sang along with the radio, even though she was off key
If you ever meet her, you'll know you've seen her
I swear there's a girl out, there's a girl out there
There's a girl out there

I don't know how many times I've heard it
You can't find it, there's no such thing as perfect
But there's a girl out there
