I'm cut you got budget..in front of me
I'm cut you got budget..in front of me
I'm cut you got budget..in front of me

Been f*ckin the game up, new rubber gold in ..door,
follow the rules like the..
these cowards are so soft and hoes lost working with
no boss,
bullin like nigga like.., I'm the king and you a purple,
sluts from the 40 cow cutter,
kidnap your mother make me an awful
48 hours to deliver the suitcase,
time is running out I'ma show how boots taste,
stopping like kane in minutes to the pain is endless,
then I'm snatching off the chain and pendant
I don't rob God, and grew up in this sky and I snatch
the cloud
he says somethig I'ma lay you out, packy out,
no more laughing out going to me mug
money on the floor shit look like a green rug,
running through the city like Diddy when Sean pop,
wish that I could take it back the 96 time stop.

I'll cut cut cut you, gone butchin..follow me
I'll cut cut cut you, gone butchin..follow me
I'll I'll..follow me.

You're 16 bars the death, 16 bars the life,
16 aunts is one pound take..your wife,
she got dream by shooters, you could call my click
communers,
running wild with merchandise for not exactly nood
her,
connect blazers drop flavors, can't faze us, no favors,
streets saviours ..please praise us, and set me up
looking flavor for a fuck, keep the table for,
put your plan together, shits whenever I have to save
on you
cup a couple pair when Jordans drop 'cause I'ma say
for few
if you bitches is in my.. daily is on my neighbors new,

that I was fucking something beautiful religiously,
if I'm not with the money millionaire, I'm with the
bitches beat
imitating soft water, looking like a victory
in times I view my torture and think life is contradictory
my steems is majorly, got major breathe,
you couldn't pitch to me
sacrifice and see so don't eat squeeze for..

..and we still in the fucking way with you,
I'll cut cut cutch it, gone butchin.. follow me
I'll cut you, cut you, cut you,
I'm, I'm, I'm ..
I'll cut you gone butchin..
