Every day is just the same, in an isolated frame, stayin'  
alive, stayin' alive  
Distant lies a warm embrace, in a form of sudden  
gaze, stayin' alive, stayin' alive  
Give me life 'cause the season is right, at the top not  
afraid of the height, and it's you who will clear out the  
sight

Make a move but not too fast, give it time and love will  
last, stayin' alive, stayin' alive  
Aiming for the whole way through, but another step will  
do, stayin' alive, stayin' alive  
Give me life and just close up to me, everything 'bout  
us is so free, and it's you who is holding the key, oh oh  
oh

Carolina dreamin' (making me glad), Carolina dreamin'  
(making me laugh), Carolina dreamin' (making me  
warm), Carolina dreamin'

You to me sure looking good, sign me back it's  
understood, keep me alive, keep me alive  
Sail away in open air, perfect match and we will share,  
keep us alive, keep us alive  
Give me life 'cause the season is right, at the top not  
afraid of the height, and it's you who will turn on the  
light, oh oh oh

Carolina dreamin' (making me glad), Carolina dreamin'  
(making me laugh), Carolina dreamin' (making me  
warm), Carolina dreamin'
