Sitting in the north up in nowhere land
What I'm doing here I don't understand
Shivers in my body goin' down the spine
I'm not good for anything I'm out of line
Close my eyes dreaming away
Hold on tight heading for a sunnier day

So my plans will take me to a sunny beach
In a land where icy winds are out of reach
There's a different way life can turn to be
I'm gonna hit the mood that will set me free
Let me find a distant shore
Matter of fact don't know what I am waiting for

I'm Freddy the dreamer, my friends are waiting here
I'm running in hot sand, the water's crystal clear

So you better join me and take a dive
Listen to the sea it's making you alive
Looking for the wave up where you belong
Hit the cool surf and you can't go wrong
Long ago you found it again
Coming right back so you see there's nothing in vain

I'm Freddy the dreamer, my friends are waiting here
I'm running in hot sand, the water's crystal clear

Listen to me hear my say, come with me and dream
away
Don't you loose another day

I'm Freddy the dreamer, my friends are waiting here
I'm running in hot sand, the water's crystal clear
