Distant time away deep in my mind
And I wonder why
There's a memory and it's so far behind
Still I wonder why
Long ago love was around, never come to an end

You and I, played for a while, and I wonder why
You and I, stayed for a while, still I wonder why
Somewhere we did go wrong, we used to be so strong
Oohâ€¦.

Walking hand in hand still I can feel
Oh I wonder why
Dreaming once again please let me heal
How I wonder why
Hearts on fire we were so near, tasting love all the way

You and I, played for a while, and I wonder why
You and I, smile after smile, so I wonder why
Taking my breath away, I'm on my knees to pray
Oohâ€¦.

Here I am, smelling your soft skin cheek
Grove about, it's an eternal seek
You, for you

You and I, played for a while, and I wonder why
You and I, stayed for a while, still I wonder why
Somewhere we did go wrong, we used to be so strong
Oohâ€¦.

You and I, played for a while, and I wonder why
You and I, smile after smile, so I wonder why
Taking my breath away, I'm on my knees to pray
Oohâ€¦.
