Dreary lights shine in the endless night  
Vicious creatures roaming by  
Evil's always waiting in the end  
The final order has been sent

Deceitful henchman from the deepest well  
Gives you a free ride straight to Hell  
Gliding through the empty fields of pain,  
Darkest skies and pouring rain

Falling from grace through this maze  
You are doomed forever  
Fear grinds your face in this cursed place  
No sanctuary evermore

Seeking havens, there's no place left to go  
Torture's painful, always slow  
No remorse, the force of evil roaming on  
Run or flee - it won't be gone

Falling from grace in the darkest haze  
You are lost forever  
Fear grinds your face in this cursed place  
No sanctuary evermore
