Headlights staring down the road ahead
Your silence beside me
And I don't want to ask

Last night, I couldn't help the things I said
But you kept your distance
Hanging on another mask

Hard times knocking at our door again
You just can't fight it
You've forgotten how to win

Cold hands like a stranger's on your skin
Can't sleep beside you so our eyes close in the sun

Where can we go from here?
Where can we go?
We keep trying to get back
To Idaho
To Idaho

Old songs keep us dancing around the room
Stuck in circles
Nothing new to see

How long can one heart beat so confused?
We can't stay here waiting on another day

Where can we go from here?
Where can we go?
We keep trying to get back
To Idaho
To Idaho
To Idaho
To Idaho
